Questionnaire & RESPONSES

Water Supply Complaint & Billing System: Stakeholder Survey

maryt4538@gmail.com Switch account

* Indicates required question

1. What is your opinion regarding the current process of reporting a water problem (no water, low pressure, leak)? *

- A) Simple, fast, and perfectly efficient
- B) Too slow, requiring office visits or repeated phone calls
- C) Lacks essential details (exact location, problem type, urgency)
- D) Both B and C

2. What causes you the highest level of frustration when following up on a water complaint? *

- A) Not knowing the complaint status or who is handling it
- B) The color of the company's bills
- C) Receiving too many SMS confirmations after payment
- D) Having the water problem fixed too early

3. How quickly are water leaks usually reported and repaired today? *

- A) Immediately, with accurate location details
- B) Late, so large amounts of water are lost before repair
- C) Leaks are always prevented before they happen
- D) Leaks are reported only on social media

4. What is the main difficulty when many residents in one area report the same water problem? *

- A) The same problem is handled as separate complaints, wasting time and effort
- B) Residents report problems that do not exist
- C) The technical team receives too few reports
- D) All reports are merged automatically today

5. What is your opinion regarding the current meter reading process? *

- A) Always based on accurate, actual readings
- B) Often estimated, which leads to wrong bills
- C) Fully automated with no errors
- D) Both A and C

6. What is the most common cause of billing disputes between customers and the water company? *

- A) Bills based on estimated readings instead of actual consumption
- B) Customers paying their bills too early
- C) Too many payment methods available
- D) Bills being printed in a large font

7. What would give customers the greatest sense of satisfaction when it comes to their water bills? *

- A) E-bills, SMS reminders, and a clear reading history
- B) Paying only in cash at the company office
- C) Receiving bills with no consumption details
- D) Waiting longer in queues to pay

8. What causes the field technical team the highest level of difficulty during daily work? *

- A) Receiving complaints late, or with missing location details
- B) Having a clear and organized list of daily visits
- C) Receiving complaints already sent to the right team
- D) Finishing all field visits too early

9. Which reports would be most useful for water company management? *

- A) Complaints, leaks, response times, and payments collected
- B) Office furniture and supplies inventory
- C) Employee lunch schedules
- D) Social media follower growth

10. What concern do you have about storing customer and billing data in the new system? *

- A) Unauthorized access to customer information
- B) Keeping too many backup copies of the data
- C) The system being too easy to use
- D) Both A and B
